

=====

GENESIS POINT — CHIMERA, DOMAI, AND MAGIC SYSTEM OVERVIEW (DEFINITIVE)

=====

SECTION PURPOSE

This document captures all canonical decisions, definitions, class structures, magic schools, terminology, and system relationships discussed in this thread. It is intended for archival, checklist tracking, and future PDF compilation. All items herein are considered stable unless explicitly revised later.

=====

CORE DEFINITIONS

=====

Genesis Stone

-
- Fundamental crystallized energy construct
 - Can exist as:
 - Discrete stones
 - Lattice structures
 - Distributed nodes
 - Field-continuous expressions
 - May be harvested, collapsed into neons, or embedded biologically
 - Originates naturally from domai events

Neon

-
- Collapsed Genesis Stone structure
 - Represents a resolved, portable spell topology
 - Typically derived from intact Genesis lattices

Domai (D-O-M-A-I)

-
- Zero-point genesis event / spatial-energy nucleation
 - Not a location, not an explosion — a persistent entity-state
 - Generates Genesis Stones and Chimera
 - Manipulates topology, boundaries, and existence fields
 - Canonical spelling: domai (lowercase)

Domai Heart

-
- The stabilized core of a domai
 - Classified as a Chimera (Class 0)
 - Acts as a continuous Genesis field
 - Cannot be harvested
 - Cannot be meaningfully destroyed
 - Foundation of regional magic ecology

=====

CHIMERA — CLASS SYSTEM (CANONICAL)

=====

Class 0 Chimera — Domai Heart

Role:

- Structural origin entity
- Defines admissible reality within its influence

Capabilities:

- Topology folding
- Boundary inversion
- Existence permitting / denial
- Causality redirection
- Spatial displacement of others without self-movement
- Large-scale energetic venting under threat

Combat Behavior:

- Prefers structural manipulation (non-combat)
- Escalates to catastrophic energy discharge when intruded upon
- Attacks manifest as beams, columns, sweeping discharges
- Attacks are not spells — they are structural exhaust

Magic Access:

- Structural / domain-level control
- Chimera-exclusive magic school (see below)

Harvesting:

- Impossible
- Destabilization causes collapse or catastrophic response

Classification Note:

- Class 0 is the root case — all other Chimera derive from domain conditions
-

Class 1 Chimera — High Magic (Zero-like Expression)

Role:

- Advanced Chimera with expressive, non-human magic
- Intermediary between domain and lower Chimera classes

Capabilities:

- Chimera-exclusive magic school
- Large-scale offense and defense
- Communication via field expression
- Tactical and strategic intelligence

Magic Nature:

- Not elemental
- Not energy-based (legacy)
- Not Astrael
- Expression of intent as structure
- Magic doubles as language, signaling, and threat display

Cognition:

- Non-symbolic
- Non-verbal

- Spatial / structural intent-based
- Comparable intelligence to or exceeding humans
- No language, math, or civilization-building

Accessibility:

- Humans cannot learn or replicate this magic
- Not forbidden — cognitively inaccessible

Class 2 Chimera — Low Magic (Spell Casters)

Role:

- Chimera with recoverable Genesis structures
- Analogous to advanced spellcasters

Subclasses:

- Class 2A — Point Magic
 - Fireballs
 - Energy lances
 - Discrete attacks
- Class 2B — Field Magic
 - Amplification fields
 - Dampening fields
 - Environmental control

Capabilities:

- Uses spell-like magic
- Has intact Genesis lattices
- Lattices can be harvested
- Lattices can be collapsed into neons

Notes:

- Chimera spell lists differ from human spell lists
- Same elements/classes, different execution
- Separate Chimera spell key list required

Class 3 Chimera — Non-Magic (Bruisers)

Role:

- Pure physical threats
- Genesis-enhanced biology only

Capabilities:

- Extreme strength
- Speed
- Durability
- Regeneration
- No spellcasting
- No recoverable lattices

Genesis Integration:

- Distributed Genesis nodes
- Act as enhancement anchors
- Similar to humans absorbing stones, but scaled

Harvesting:

- Not targeted
- Stones degraded or inert on death

=====

CHIMERA BIOLOGY & FORM

=====

General Form Language:

- Exoskeleton-like structure
- Continuous armor, minimal seams
- Black, obsidian-like, semi-gloss surface
- No visible soft tissue
- Digitigrade stance
- Upright bipedal posture
- Functional, weaponized tail

Biology Philosophy:

- Genesis-first beings
- Biology serves structure and energy flow
- No atmospheric respiration
- No waste systems
- No traditional organs

=====

MAGIC SCHOOLS (UPDATED)

=====

Elemental Magic

- Environmental manipulation
- Common among dwarves and legacy systems

Energy-Based Magic (Legacy)

- Raw energy projection
- Used by elves and others
- Distinct from Chimera-exclusive magic

Biogenic Magic

- Life, growth, regeneration
- Biological manipulation

Astrael Magic (A-S-T-R-A-E-L)

- Ancient race magic
- Cultural, refined, symbolic
- Known to humans via Rosetta monoliths

- Used bluntly by dragons
- NOT the definitive magic system

NEW MAGIC SCHOOL — CHIMERA-EXCLUSIVE

Working Description:

- Structural Expression Magic
- Domai Expression
- Zero-State Magic (military / colloquial)

Nature:

- Chimera-only
- Non-human cognition required
- Intent expressed directly into space, fields, and boundaries
- Same medium used for combat and communication

Characteristics:

- No spells
- No spell lists
- No verbal or symbolic casting
- Geometry, lines, shapes, pressure, and presence
- Manifests as:
 - Structural dominance
 - Area denial
 - Reality shearing
 - Catastrophic venting

Narrative Role:

- “The magic of the enemy”
- Cannot be learned by humans
- Drives fear, doctrine, and asymmetric warfare

HARVESTING & CRACK TEAMS

Harvesting Teams:

- Specialized units
- Target Class 2 Chimera only
- Preserve Genesis lattice integrity
- Enable spell discovery and neon creation

Crack Teams:

- Elite units tasked with domai approach
- Not hunters — intrusion specialists
- Designed to survive:
 - Structural manipulation
 - Continuous energy discharge
 - Domain immune responses

Doctrine:

- Defensive layering
- Anchoring protocols
- Stabilization measures
- Expect catastrophic escalation

TECHNICAL MANUAL STRUCTURE

Manual 1 — Technical Manual of Magi

- Human magic
- Human spell lists
- Human spell keys
- Elemental, energy, biogenic, Astrael

Manual 2 — Chimera Doctrine Manual

- Chimera classes
- Chimera-exclusive magic
- Chimera spell variants
- Offensive and defensive behaviors
- Field recognition and survival protocols

Shared Infrastructure:

- Same Domains & Operators pipeline
- Different operator access and cognition

DESIGN PHILOSOPHY (LOCKED)

- Magic is archaeological, not accidental
- Intelligence ≠ civilization
- Power ≠ spellcasting
- Different beings express magic differently
- Humans do not eventually learn everything
- Enemy magic must be alien, not reskinned
