

MK147 — BLACKSTONE UNIVERSITY
SEMESTER I HELKIR DAILY SCHEDULE v1.1

Core logic:

- 31-hour day.
- 6-day week.
- 3 class days.
- 3 non-class days.
- Standard lecture = 2 hours.
- Standard lab = 2 hours (when attached to a lecture block).
- Semester I is notorious because the classes form one brutal foundation node:

Topology + Differential Geometry + Chemistry

→ Genesis Field Theory

→ Quantum Field / Atomic Concept Modeling

→ Healing Application

Kira's Semester I Courses:

- Biology I
- Biology I Lab
- Anatomy I
- Chemistry I
- Topology I
- Genesis Field Theory I
- Differential Geometry I

DAY 1 — BIOLOGY / ANATOMY

00:00–10:00 Sleep

10:00–11:00 Wake / Breakfast / Travel

11:00–13:00 Biology I

13:00–15:00 Biology I Lab

15:00–16:00 Break / travel / notes

16:00–18:00 Anatomy I

18:00–19:00 Lunch

19:00–21:00 Biology review

21:00–23:00 Anatomy review

23:00–25:00 Free / recovery

25:00–26:00 Dinner

26:00–29:00 Personal reading

29:00–31:00 Nyx time

DAY 2 — CHEMISTRY / TOPOLOGY

00:00–12:00 Sleep

12:00–13:00 Breakfast

13:00–15:00 Chemistry I

15:00–16:00 Break / travel / notes

16:00–18:00 Topology I

18:00–19:00 Lunch

19:00–21:00 Chemistry review

21:00–23:00 Topology review

23:00–25:00 Free / recovery

25:00–26:00 Dinner

26:00–29:00 Personal reading

29:00–31:00 Nyx time

DAY 3 — REVIEW / STUDY GROUP

00:00–12:00 Sleep

12:00–13:00 Breakfast

13:00–16:00 Biology + Anatomy personal study

16:00–17:00 Lunch

17:00–20:00 Chemistry + Topology personal study

20:00–24:00 Structured study group

24:00–25:00 Dinner

25:00–29:00 Free / recovery / notes

29:00–31:00 Personal reading

DAY 4 — GENESIS FIELD / DIFFERENTIAL GEOMETRY

00:00–12:00 Sleep

12:00–13:00 Breakfast

13:00–15:00 Genesis Field Theory I

15:00–16:00 Break / travel / notes

16:00–18:00 Differential Geometry I

18:00–19:00 Lunch

19:00–21:00 Genesis Field review

21:00–23:00 Differential Geometry review

23:00–25:00 Archives / research

25:00–26:00 Dinner

26:00–29:00 Personal reading

29:00–31:00 Nyx time

DAY 5 — STUDY GROUP / FOUNDATION REVIEW

00:00–12:00 Sleep

12:00–13:00 Breakfast

13:00–17:00 Free Block
(Optional Study / Campus Activities /
Hospital Observation / Personal Projects)

17:00–18:00 Lunch

18:00–21:00 Study Group

21:00–24:00 Foundation Review
(Biology / Anatomy / Chemistry /
Topology Integration)

24:00–25:00 Dinner

25:00–29:00 Free / recovery

29:00–31:00 Personal reading

DAY 6 — PERSONAL / RECOVERY DAY

00:00–12:00 Sleep

12:00–13:00 Breakfast

13:00–18:00 Nyx time / training / campus exploration

18:00–19:00 Lunch

19:00–23:00 Personal reading

23:00–25:00 Free / recovery

25:00–26:00 Dinner

26:00–31:00 Open block /
Errands /
Social drift /
Unexpected story events

Weekly Pattern

Day 1:
Biology I
Biology I Lab

Anatomy I

Day 2:
Chemistry I
Topology I

Day 3:
Review + Study Group

Day 4:
Genesis Field Theory I
Differential Geometry I

Day 5:
Foundation Review
Study Group
Hospital Observation
Optional Work

Day 6:
Recovery
Nyx
Personal Time

Weekly Formal Instruction

Biology I	2 hours
Biology I Lab	2 hours
Anatomy I	2 hours
Chemistry I	2 hours
Topology I	2 hours
Genesis Field Theory I	2 hours
Differential Geometry I	2 hours

Total Formal Instruction:
14 hours/week

Actual Workload:

- Class
- Review
- Study Group
- Archives / Research
- Foundation Reinforcement
- Recovery
- Nyx Maintenance

Operational Note:

The schedule appears light from the outside.

It is brutal internally because every course
feeds the same HELKIR foundation node.

Falling behind in one class destabilizes
all of the others.
